

## IRCM Foundation's Future Leaders Committee

The IRCM Foundation's Future Leaders Committee is composed of young professionals who wish to get involved in supporting the Foundation in its mission while becoming familiar with the operation of an NPO and its Board of Directors. The mandate of the succession committee is therefore to reflect on the issues presented to it by the Foundation and to propose angles of approach that will provide an outside perspective on these issues and allow the Foundation to draw inspiration from them in planning its actions. In order to fully understand the functioning of the IRCM Foundation, the members of the Future Leaders Committee are also involved in the various committees of the Foundation's fundraising activities and take turns participating in the meetings of the IRCM Foundation Board of Directors.
